

## CASTLE HILL = COLLINE DU CHÂTEAU

**1 Montée Eberlé**  
**from Place Garibaldi, then Rue Catherine Ségurane**  
 One of the passages with the fewest steps.

**2 Escalier Jules Eynaudi = Pouorta del Rustegue**  
**from Rue Rosetti**  
 Around sixty steps.

**3 Montée Montfort**  
**from rue de Foresta**  
 One of the passages with the fewest steps.

**4 Montée Auguste Kerl**  
**from rue Droite**  
 Approximately sixty steps.

**5 Montée Lesage, Tour Bellanda**  
**from quai Rauba Capeu**  
 Beware, about 250 steps up to Tour Bellanda and about 100 afterwards, with intermediate landings.  
 It is possible to take the elevator (on the left below the stairs), but it does not stop at the Bellanda Tower.

The step count is indicative only, and does not include isolated steps or those separated by long landings.

There are many paths on the castle hill. We've chosen from among them to

- visit the site with more or less steps
- reach all the magnificent panoramas
- pass all the points of interest
